Total points	23.75	23.75		

Notes and Comments for Will Vespole:

Will did a great job throughout the project and I think we worked very well together as a team. At the very beginning, we took time to talk about how we would split up the work and figured out a system where we each dealt with our own responsibilities and helped each other out when needed. Will was always on top of his work and more than willing to help me whenever I needed a hand, and he was a great communicator the entire time. The only reason I marked down accuracy was because I think we could've done a little bit better of a job organizing our data collection, but this is something we share collective blame for.
